# Immunization Program Updates - Task Force of Border Health Officials

---

## DSHS Immunization Program

# Immunization Updates

- **Respiratory Syncytial Virus (RSV)**

- **Beyfortus™ (Nirsevimab)** RSV immunization for infants has been available for ordering since October 2, 2023.
  - Due to limited national supply, nirsevimab was available for ordering in bi-weekly iterations from October 13 to January 31.
  - Nirsevimab returned to standard open ordering on Monday February 12, 2023, and will continue until supplies are depleted.
- **Abrysvo™ (RSVpreF)** RSV vaccine for maternal patients
  - Available for ordering December 20, 2023, to January 17, 2023.
  - Offered in the TVFC program for eligible pregnant people 18 and under.
  - ACIP-recommended only through January 31 for the 2023-2024 RSV season

- **Influenza**

- 2023-2024 flu vaccines are available for ordering as needed
- 2024-2025 flu prebooking closed February 2, 2024.
  - Prebooked doses will begin shipping closer to the 2024-2025 season

- **COVID-19**

- No barriers or issues; distribution and ordering have faced no supply constraints
