

Case Management of Incarcerated and Recently Released Clients

Pamela Nims

Minority AIDS Initiative Coordinator
Texas Department of State Health Services

Objectives

- Identifying the services allowed by Ryan White Part B during and after incarceration.
- Identifying reentry client needs and overcoming barriers to care.

Can a RW Provider Provide Any Services to Incarcerated Clients?

Ryan White funded agencies can provide core medical and support services to an incarcerated client on a transitional basis (up to 180 days). This is as long as the services are in areas that are not expected to be covered by the incarceration facility (no duplication of services).

Services Provided

Incarceration

Facility-

Food

Housing

Transportation

Medical Care

Medication

Medical Supplies

RW Providers-

Supportive Transition
Services
