2027

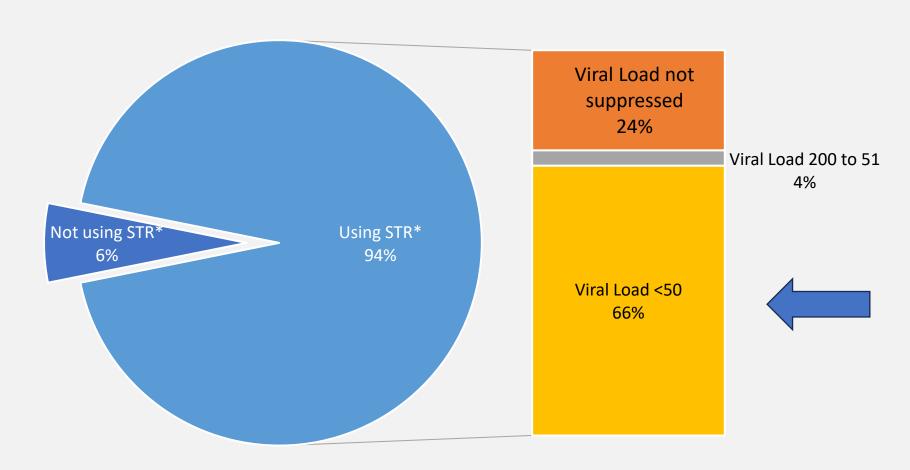

Texas Department of State Health Services

Biennium

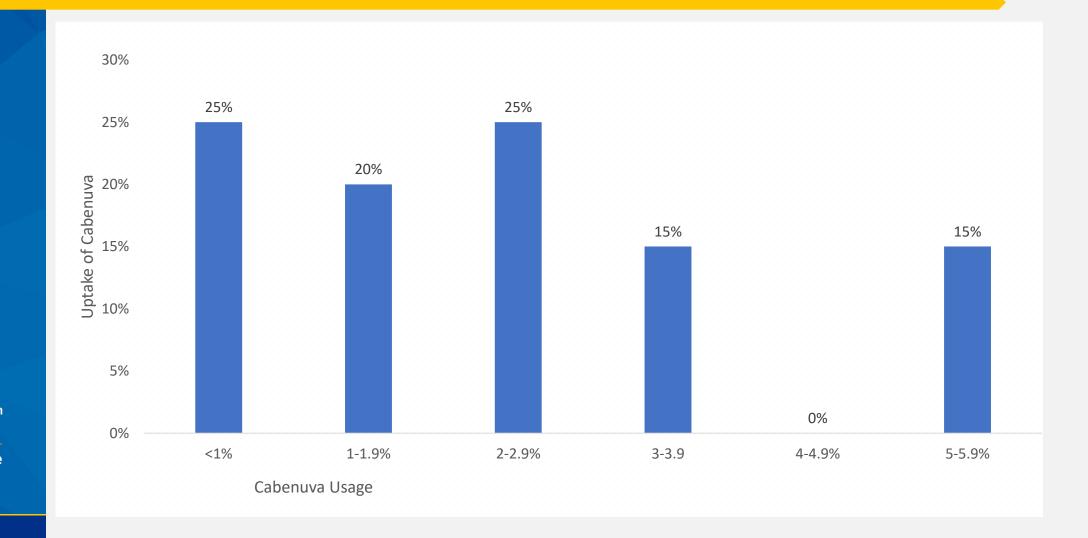

Cabenuva Utilization in State and Territorial AIDS Drug Assistance Programs (ADAPs)

THMP Participants Meeting Viral Suppression Requirements for Cabenuva

Nationwide ADAP Cabenuva Utilization

THMP Cost Compared to Single Tablet Regimens

- The analysis team compared the cost of Cabenuva to a weighted average cost of single-tablet regimens ordered in the calendar year 2023. This resulted in a higher cost because Cabenuva is more expensive than most singletablet regimen medications on the THMP formulary.
- THMP expects about 5% of ADAP participants to switch from their current regimen to Cabenuva.
- Over the biennium, Cabenuva would cost \$3,596,771 more than single-tablet regimens.
- This includes the cost of the medication, injections, packing, and shipping.

Medication Expense Projections

Medication Expense Projections Data

- DSHS receives the AIDS Drug Assistance Program (ADAP) projections output from Risk Strategies, the actuarial firm, each month.
- The following slide shows this ADAP projection sheet using data through August 2024.

THMP Projections Excel Sheet

Cost Drivers for Projections

- THMP expects the total unique clients served in 12 months to grow by 1% in September 2024 and September 2025.
- THMP expects the clients served by month to equal the average % of unique clients utilizing each month for the previous six months. This is currently at 50%.
- THMP expects to base scripts on clients served per month and average scripts per client for the previous six months.
- THMP based the days supply on scripts and average days per script for the previous six months.
- THMP based the total cost on days supply and cost per day.

Budget Report

D'Andra Luna, MPH

Section Director

HIV/STD Section

THMP Financial Report

	2024*	2025*	2025*	2025*	2025*
Budget Description	Expended	Budgeted	Obligated	Expended	Remaining
General Revenue (GR)	\$239,511	\$0	\$0	\$0	\$0
GR Match/MOE	\$2,667,979	\$2,471,807	\$2,471,807	\$0	\$2,471,807

Total All Funds	\$110,681,326	\$103,882,420	\$64,860,045	\$418	\$64,859,627

^{*}State Fiscal Year: September 1 – August 31 annually.

Financial Shortfall Update

Financial Shortfall Update

- THMP will expand insurance purchasing starting January 2025.
 - ► THMP will distribute a notification in the coming weeks. Interested clients should respond, stating their interest.
 - ▶ Open enrollment begins November 2024.
- This avoids a financial shortfall in future fiscal years.
- The program cannot make other programmatic changes until rebate collection begins.

THMP Insurance Expansion Plan

SPAP and TIAP Process

The client with insurance gets a copay card from Ramsell. (Ramsell charges a fee.)

Ramsell makes premium payments to the insurance company. (Ramsell charges a fee per premium paid.)

The client fills a prescription at a pharmacy that is innetwork for insurance and Ramsell.

The client swipes
copay card and
leaves with
medication. (Ramsell
charges a fee for
each copay.)

8 months later. the THMP *gets* a voluntary rebate.

THMP uses the Ramsell information to submit quarterly invoices to drug companies to request copay rebates.

Ramsell bills THMP for premiums, copays, and fees monthly.

Open Enrollment

- Clients must enroll in their plan of choice during open enrollment.
- In 2024, open enrollment runs from November 1 to January 15 for coverage starting in January 2025.
- Clients must use the open enrollment period even if they buy 'private market' plans.
- A new <u>policy</u> allows people with household incomes between 100% FPL and 150% FPL to enroll outside of the open enrollment period. Limited special enrollment periods during the coverage year are available for clients in special situations.

Key Dates for Implementation

October 2024

- Develop communication and community engagement plans.
- Develop training for internal and community agency staff.

November 2024–January 15, 2025 (Year 1)

- ADAP participants enrolled in insurance during open enrollment. Depending on interest, ADAP may require a limit.
- Updates to TCT and Ramsell data systems, as needed.
- Update program policies and procedures.

March-April 2025

Hire new FTEs.

Ongoing

 Enrollment for clients with existing insurance, clients with Special Enrollment Period (SEP,) and clients between 100% and 150% FPL.

November 2025-January 15, 2026 (Year 2)

ADAP participants enrolled in insurance during open enrollment.

Thank you.
