# DSHS Consumable Hemp Program Overview

May 2024

Timothy Stevenson, Associate Commissioner for  
Consumer Protection Division

# Background on Hemp Regulation in Texas

**TEXAS**  
Health and Human  
Services

Texas Department of State  
Health Services

# Legislative History

- **2018: Federal Farm Bill** de-coupled definition of hemp from marijuana, allowing for more widespread production.
- **2019: Texas HB 1325 (86-R)** granted DSHS authority to regulate the manufacture, distribution, and sale of consumable hemp products (CHP).
- **2020:** Consumable Hemp Program rules created by DSHS.

# Regulatory Limit for Consumable Hemp

- Delta-9 THC may not exceed 0.3% for hemp and hemp products.
- No other THC variation including Delta-8 THC is addressed in state or federal statute.
- CHPs are regulated as food if they comply with definition of hemp.
- All other hemp products (including Delta-9 THC > 0.3%) are considered controlled substances under Texas Controlled Substances Act (Health and Safety Code Chapter 481).

# DSHS Consumable Hemp Program Operations

# License and Registration

- CHP License
  - Manufacturing/processing of CHP in Texas
- Retail Hemp Registration
  - Retail sale of finished-product CHP manufactured by other businesses
- Wholesale distributors
  - Obtain a DSHS Food Wholesaler License or DSHS Drug Wholesaler License

# Inspect and Test

- **Inspect:** Random inspection of retail registrants began in early 2021
  - Inspectors collected product samples
- **Test:** Performed by a contract laboratory
  - Samples tested for Delta-9 THC and randomly tested for pesticides, heavy metals, bacteria, and other analytes

# CHP Licensees by the Numbers

CHP Manufacturers (CH Product License)	Retail Hemp Registrations	Retail Locations
642	3,633	7,082*

\*Registrants can have more than one location under their registration.

# Consumable Hemp Program Staff

- 2 licensing specialists and 4 sanitarians
  - Supported by revenue from CHP licensing fees
- DSHS Rider 32 (88R) allows up to 6 additional staff commensurate with revenue growth
  - DSHS hiring the following new program staff:
    - Manager
    - Licensing specialist
    - 4 sanitarians

# Inspection Frequency

- Currently every 5 years
  - Additional sanitarians may reduce time between inspections
- Factors impacting inspection frequency:
  - Number of DSHS sanitarians available for inspections
  - Increasing number of retail locations
  - Size of manufacturing firms
  - Number and severity of deficiencies found during inspections

Consumable Hemp Product Manufacturer License Fee	Retail Hemp Registration Fee
\$250 per facility	\$150 per location (there can be multiple locations per Registration)
